Subject: RE: FW: Mining Information Session- Dillingham - BBNA - Mining Information Meeting (and TNC/Tim Troll said okay to share map with Millrock claims)

Two meetings - two locations, Mining Meeting is still at head start, we will break that meeting at 1015 to go to the elementary gym (for BBAY Assessment listening session), then go back to the head start building for the rest of the mining meeting.

THANKS!!

Is the meeting at Head Start or the Elementary School (what your email to Ralph says)? Let's definitely get together when you arrive. We could do dinner at my house if no one allergic to dog hair (I have a six-year old lab) or at one of the restaurants downtown. I'll ask Annie Shade, Head Start Director, about gaining early entry to the building (spitting distance from BBNA).

And get back with you on the invoice information including tax ID number.

Patty and I are leaving Dillingham Saturday. ;) We get in Thursday night, coming over on Iliamna Air - having to charter from Iliamna.

Staying at the Bristol Inn. I am renting a car. Sally Thomas will be with us, she leaves Friday though. So, if you want to get together let me know. Also, we will want to get into the head start building early so we can set things up, who should I talk to about getting the key - or is that you?

For the invoice of the rental at the head start building, I will need the name, address, and tax id #.

Also, I only need Ralph at the 1030-12 session, and at the opening of the Mining Information session. I won't need him to facilitate all day.

He and I are playing phone tag right now. I just want you to know what is going on.

Thanks! Tami

Tami - cool that you got the elementary school. We should make a sign for the Head Start Building in case people show up there and know where to go. Look forward to seeing you next week. Keep an eye out for weather. AND the new rules that Pen Air instituted in April 2011 in case you're flying with them. They require a 90 minute check-in prior to departure time (even if the flight delayed) and getting stricter about this each day. Sue

Roger on that. Tribal environmental program staff and most tribes have been notified of the session. EPA (Tami) previously sent out a draft agenda and registration form in order to get an approximate head count. And apparently has done or plans to do a radio announcement. I'll touch bases with Tami early next week for any additional details that need to be worked out. I know EPA appreciate they can pay for use of the Head Start Yellow Room after the meeting based on an invoice and also spoke with Michael M about this per your direction. There should be a large turnout based on some of the calls/discussion I've had with environmental program folks. I can't open the attachments in the Tami email to you but can get from her later.

Thanks Ralph,

EPA is going to hold the Bristol Bay Watershed Assessment Listening Session at the Elementary school, just to make sure we have enough room for everyone. So, the mining information meeting will break at 1015AM and then start back up at 1PM.

Anyhow, last year when the Administrator was in Dillingham you helped to facilitate the listening session, I am wondering if you would be available to do this again? That meeting went so beautifully. We have less time than we did last year, so I want to be sure we use it wisely.

We aren't taking any formal public comment but this will be a chance for people and organizations to share their voices with EPA. I attached a few documents from the Bristol Bay Watershed Assessment website so you can see the latest information.

The draft agenda is as follows:

1030AM - Welcome & Invocation - Curyung Tribe (invited) 1040AM - Introductions of EPA Officials - led by Rick Parkin 11AM - Summary of Bristol Bay Watershed Assessment by EPA 1115-12PM - Open Dialogue 12PM - Closing 12-1245PM Lunch - Curyung is organizing a Potluck 1245PM - EPA officials must leave to go to the airport 1245PM - Mining Information Participants head back to the BBNA Head Start Building

(1PM - back at the BBNA Head Start Building for the Mining Information Sessions)

I understand there is a lot going on Friday, with the Rural Providers so if you are unavailable I understand. The closing of that meeting is important and I wouldn't want to pull you from that. Please let me know if you are interested and available to help with this meeting.

Sincerely,

Tami
